

## ENROLLED NURSE

Select Support Services is looking for a caring and capable Enrolled Nurse to join our team, supporting NDIS participants across Cairns, Innisfail, Mareeba and the Tablelands.

This role would suit someone who enjoys community-based care, values genuine relationships, and wants to be part of a team where participants are supported with dignity, safety and respect.

At SSS, our nursing team plays an important role in helping participants feel safe, supported and well cared for in their own homes and communities. As an Enrolled Nurse, you will work alongside Registered Nurses, participants, families and support teams to provide consistent, person-centred care.

As part of the role, you may be involved in medication support, wound care, diabetes monitoring, health observations, documentation, personal care support, community access and assisting participants with their day-to-day wellbeing and independence.

We are looking for someone who brings professionalism, good communication, strong attention to detail, accurate documentation skills and a calm, supportive approach to care.

## ESSENTIAL REQUIREMENTS

- Current AHPRA registration as an Enrolled Nurse
- Current Queensland driver's licence
- Ability to work under the direct or indirect supervision of a Registered Nurse
- Commitment to participant safety, dignity and quality care
- Willingness to complete relevant checks and onboarding requirements

Previous experience in community nursing, NDIS, disability support, wound care, diabetes education or infection control would be highly regarded.

*If you are an Enrolled Nurse who wants to feel part of a supportive, values-driven team where your work is respected and your care makes a real difference, we would love to hear from you.*
